---------------	-----------	-----	---------------	-----------	---------------	--------	---------

* Using a mathematical formula to compute the actual population, rounded up to the nearest one.

** Assumes the same percentage used to compute the 2000 actual Hispanic/Latino population, rounded to the nearest one.

¹ The City name serves as a reference. The city is not necessarily the county seat.

² The state was divided to include about the same number of counties in the Northern and Southern Regions. There are 79 counties in this report.
